**Value: COCOA.**

Analysis prepared on: 08/02/2020

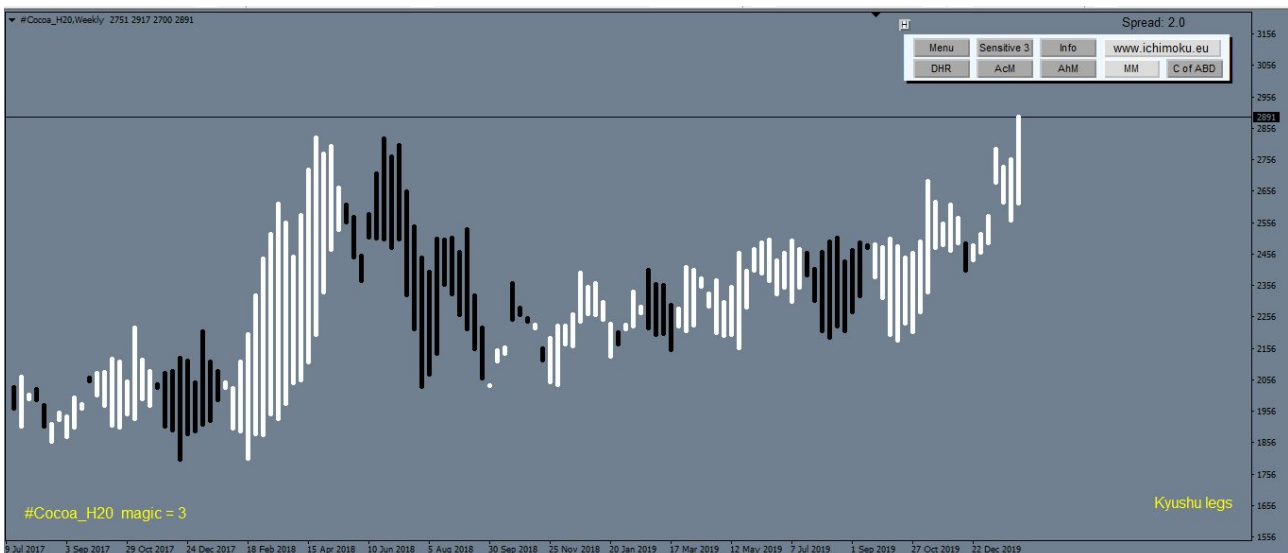

The description of the situation on the daily time interval (D1):

An interesting moment approaches on the COCOA. The daily chart shows a strong rising trend. The price reached the N basic range (marking colour yellow). After piercing the resistance we may expect the continuation of the rising movement till the next „change day“ (18.02.2020).

The description of the situation on the weekly time interval (W1):

The Kyushu Legs (candles of nine periods) confirm the rising direction. „Average Prices“ (average candles) push the subsequent maximums out, the subsequent signals of purchase (BB) appear.
